Date of Plan being modified: JUNE 22, 2022

Secured Claims and then Priority Claims

Explain below why the plan is being modified:

It appears that the Debtor will not be able to modify the mortgage against the Grandview property to address the arrearage that accrued. The plan is being changed to eliminate any modification and is now calling for the Debtor to address the mortgage arrearage, pertaining to this property, through a refinance of other property, that the Debtor recently inherited. The Debtor's aunt passed away, on July 24, 2022, and the Debtor, through inheritance, became entitled to a car and a house that the now deceased aunt owned. The car was sold two months ago, with the proceeds being used to pay real estate obligations pertaining to the real property which the Debtor inherited in Montclair, New Jersey. The Debtor is the sole party what inherited the real property, located at 14 Willowmere Avenue, Montclair, New Jersey. To the best knowledge of the Debtor, there is no mortgage against this property and it has a market value, according to an realtor estimate from

Explain below how the plan is being modified:

about six months ago, of \$541,000. There is more than sufficient equity, in this property, so that the Debtor should be able to obtain a mortgage to address all remaining plan obligations, after accounting for payments. Plan payments are continuing, at the original amount, for the entire plan term, to allow the Debtor the time necessary to effectuate the probate of the Montclair property. A family friend is currently living in this property and paying utilities, to watch over the house, to prevent break ins or otherwise. Once the probate is completed, the Debtor will rent the property and obtain financing, in the form of a mortgage against this property, to address plan obligations. The plan will no longer call for a loan modification and instead provide for the Debtor to refinance or obtain a mortgage against this inherited property, to address plan obligations.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he considers his own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale. (Source: FDIC Interagency Appraisal and Evaluation Guidelines, October 27, 1994.)

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the

STATEMENT OF LIMITING CONDITIONS AND CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is valued on the basis of it being under responsible ownership.
- 2. Any sketch provided in the appraisal report may show approximate dimensions of the improvements and is included only to assist the reader of the report in visualizing the property.
- 3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 4. Any distribution of valuation between land and improvements in the report applies only under the existing program of utilization. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used.
- 5. The appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous waste, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. This appraisal report must not be considered an environmental assessment of the subject property.
- 6. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
- The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.
- 8. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.
- 9. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower; the mortgage or its successors and assigns; the mortgage insurer; consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of Columbia; except that the lender/client may distribute the property description section of the report only to data collection or reporting service(s) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.
- 10. The appraiser is not an employee of the company or individual(s) ordering this report and compensation is not contingent upon the reporting of a predetermined value or direction of value or upon an action or event resulting from the analysis, opinions, conclusions, or the use of this report. This assignment is not based on a required minimum, specific valuation, or the approval of a loan.

- 8. My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.

INTENDED USE: THE INTENDED USE OF THE APPRAISAL IS TO ESTIMATE THE MARKET VALUE OF THE SUBJECT TO DETERMINE FAIR MARKET VALUE FOR A LEGAL MATTER, BANKRUPTCY.

SCOPE OF WORK: THE SALES COMPARISON APPROACH TO VALUE WAS USED IN THIS REPORT. THIS METHOD BEST INDICATES ACTIONS OF THE MARKET FOR THIS TYPE PROPERTY. THE LOT SIZE, SHAPE, PHYSICAL CONDITION AND LAND TO BUILDING RATIO ALLOW THE PRESENT STRUCTURE AND INDICATE A GOOD UTILIZATION OF THE IMPROVEMENTS. BASED ON CURRENT MARKET CONDITIONS, THE PRESENT USE AND STRUCTURE AS A TWO FAMILY RESIDENCE IS ITS FINANCIALLY FEASIBLE AND MAXIMALLY PRODUCTIVE USE. THE SUBJECT IS LOCATED IN AN R-3 ZONE. (1 and 2 family residential, minimum lot size 7,500 sq feet for 2 family dwellings, the subject's current use is legal nonconforming, grandfathered use)

INCOME APPROACH: BASED ON A REVIEW OF CURRENT RENTAL DATA IN THIS SPECIFIC MARKET THE TOTAL ESTIMATED GROSS MONTHLY RENT \$2,700 X GROSS RENT MULTIPLIER (GRM) 140 = \$378,000. (comparable rental data reviewed from the Garden State mls)

ADJUSTMENT BASED ON \$4,000 PER FULL BATH. GLA BASED ON \$35 PER SQUARE FOOT AND ROUNDED. ALL SALES CONSIDERED IN THE FINAL DETERMINATION OF MARKET VALUE.

THE SUBJECT HAS NOT BEEN SOLD IN THE LAST 36 MONTHS.

THE SUBJECT HAS NOT BEEN LISTED FOR SALE IN THE LAST 12 MONTHS.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he considers his own best interest; (3) a reasonable time is allowed represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale. (Source: FDIC Interagency Appraisal and Evaluation Guidelines, October 27, 1994.)

* Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgement.

STATEMENT OF LIMITING CONDITIONS AND CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is valued on the basis of it being under responsible ownership.

The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. This appraisal report must not be considered an environmental assessment of the subject property.
- 6. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. - 7. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.
- 8. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.
